RIGGING

THE RELIABILITY TO SAFELY LIFT YOUR TOUGHEST LOADS.

THE SERVICE TO ENSURE SOLUTIONS THAT MEET YOUR NEEDS.

Synthetic Webbing Slings

Our slings are easy to position, reliable, safe and able to protect loads during moves. They give maximum control and durability with non-abrasive material. In addition to fitting, eye, hardware and other accessory options, we offer:

- Flat Eye Slings
- Twisted Eye Slings
- Wide Body Basket
- Load Balancing Basket
- Endless/Grommet Sling

Synthetic Round Slings

Our synthetic round slings are made of high strength, load bearing yarns and wrapped in a flexible polyester fabric cover. This gives less stretch value to more firmly grip your loads during overhead lifting. We manufacture various types of synthetic round slings, including:

- Eye & Eye Slings
- High Capacity Poly Round Slings
- Braided Slings

Wire Rope & Cable Slings

Our wire rope and cable slings allow you to safely lift even the most difficult loads. Olsen wire rope slings are strong, safely grip and lift some hot materials, and are built to better tolerate abrasive wear. We produce various types, including:

- Braided-wire rope Slings
- Bridles
- Cable Slings
- Chokers
- Donkey/Concrete Pipe Slings
- Hand-Spliced

Alloy Lifting Chains

We sell and service the most durable, dependable chains on the market. Our chains are made of Grade 80 or Grade 100 lifting grade chain, ideal for lifting high-temperature or difficult loads.

Olsen Chain & Cable, Inc. has a full service department for all of your inspection, refurbish and follow-up needs.

Annual Inspection Reminders. We'll keep track of your inspection schedule so you can focus on the work at hand. Convenient email alerts, or a call if requested, will let you know when your equipment is due.
